Faculty, Research Scholars & Students

Department of Water & Health

Faculty of Life Sciences

Brief Profile of Dr. Senthamil R. Selvan, Ph.D

Dr. Senthamil Selvan is the founder of Siddha Yoga Research International, Irvine, California, USA. He is an established scientist in the area of cancer immunotherapy. Dr. Selvan obtained his M.Sc. from Madras University, Madras, and M.Phil. and Ph.D. from Jawaharlal Nehru University, New Delhi. During more than 3 decades of his research, he has contributed to the clinical trial development of cancer vaccine, and adoptive immunotherapy of immune cells at institutions such as Bria Cell Therapeutics, Thomas Jefferson University, Hoag Hospital, and Duke University Medical Center. He has positively impacted the lives of many advanced stage cancer patients. His post-doctoral training was in understanding immune mechanisms against cancer at Virginia Tech and Duke University Medical Center. He has served as the honorary Research Director of Vivekananda Yoga Research Foundation in CA from 2010-2016. Since 2010, Dr. Selvan has been deeply interested in Yoga therapy research due to his own experience in reversing certain disorders through the practice of Yoga in combination with herbal preparations based on Siddha/Ayurvedha system. He is Council of Yoga Accreditation International (CYAI) certified Yoga Instructor and further obtained training in Yoga therapy modules for various disorders. To take Yoga therapy to mainstream health care, he has conducted a randomized clinical trial study of Yoga Therapy for Irritable Bowel Syndrome (IBS). He is embarking on multi-center clinical trial of Yoga in combination with other treatment modalities including Varmam, Ayurveda and Siddha systems for IBS as well as other disorders. Further, Dr. Selvan has special interest in reversing certain ailments through immunomodulation, rejuvenation, and regeneration.
